Mr. Moore asked the Planning Department for the staff report. Mr. Ferguson informed the Board that just prior to the meeting, the applicant requested that the application be amended to a reduction of required parking from 193 spaces to 160 spaces instead of 127 spaces. Mr. Billew gave the recommendation from the Planning Department and stated that the requirement is that all parking be on a paved dust free surface. The applicant requests a reduction of parking because of an existing gravel lot that has been used for parking in the past. In order for the Planning Department to have basis to require future developments to provide the required paved parking and remedy the problem of gravel parking, the staff recommendation is for denial.

Mr. Moore asked if the applicant was present. Mr. Bob Hoffman gave the presentation on behalf of the applicant and requested the approval of the variance due to a lack of visibility of the parking and because adequate parking will be provided by an existing gravel area.

Mr. Moore asked if there was any opposition. There was none. Mr. Moore entertained a motion from the Board. Mr. Allen made a motion to deny the variance application. Mrs. Futch seconded the motion. The motion carried. 3-0

Mr. Moore asked if there were any other reports by staff or Board members. There were none.

Mr. Moore then called for a motion for adjournment. Mrs. Futch made a motion to adjourn. Mr. Allen seconded the motion. The motion carried 3-0
