Mr. Moore asked if the applicant was present. Mr. Michael Opata, the applicant was present. Mr. Ferguson gave the report from the Planning and Zoning Department noting that the applicant was not specific as to the orientation of the building, the building will be independent of the convenience store and will require utilities that the applicant has not addressed and that vinyl siding is not an allowed façade treatment in the BG zoning district. Mr. Opata presented the Special Use request and fielded many questions from the commission members. Mr. Childers stated that based on the plans provided by the applicant, he felt the commission would not be able to make a correct assessment of the applicant's intent and that it would be beneficial if the applicant provided more detailed drawings of the building. Comments by Staff and Planning Commissioners:

1. Report by staff regarding D's Used Tires

Mr. Ferguson gave the staff report regarding D's Used Tires that had been requested by Mr. Smith at the January Planning Commission meeting. Mr. Ferguson noted that the property where D's Used Tires operates is located in the HSB zoning district and therefore there are no specific standards to be placed on the operation of a business of this type. He also noted that the work list that had been tabled indefinitely contained the item of Uses that Require Special Uses. Mr. Merrill stated that he would like to revisit the work list and asked Mr. Ferguson to add it to the March agenda.

Mr. Smith made a motion for Mr. Ferguson to file a complaint form and pass it along to the Quality of Life unit for the D's Used Tires property as well as the emission shop at the corner of Grayson Hwy and Hwy 124. The motion was seconded by Mr. Childers. The motion carried. 4-0

2. Report by staff regarding property maintenance

Mr. Merrill entertained a motion to adjourn. The motion to adjourn was made by Mr. Roberts and seconded by Mr. Smith. The motion carried. 4-0
