

Utilities Protection Center

Before you dig, call 1-800-282-7411

Before you start digging on your property (for deck building, fencing, landscaping, etc.), Georgia State law requires that you call UPC (Utilities Protection Center).

UPC is a free one-call system that tells utilities of your digging or excavating plans.

Call no more than two weeks, but at least 36 hours, before you begin digging (not including weekends and holidays). Utilities will then mark their underground pipes, wires and cables with stakes, flags or paint.

For more information visit the UPC web site at www.gaupc.com

Know Your Marks

Each utility company uses a specific color to mark their buried facilities.

Yellow

**Gas, Oil,
Petroleum**

Green

Sewer

Red

Electric

Blue

Water

Orange

**Communication,
Telephone, TV**

Purple

**Reclaimed
Water**

White

**Proposed
Excavation**
(black when
snow is present)

Pink

**Temporary
Survey**
